When Democrats fall out like this, is

lively, even in an "off" year? or that the prospects of Democratic success in the next State campaign are so extremely brilliant?

The report on the "Mineral Resources of the United States," by Athert Williams, Jr., shows that the total value of coal mined in 1884 was \$143, 768,878, and of coke burned \$7,242,878. The total value of crude petroleum for the year was \$90,476,294, which was greatly increased by refining. The iron one amounted to \$22,850,000, and the pig iron to \$73,761,624. Of coppet there was taken out \$17,789,887 worth.

A salze of fifteen yearling colls of aristocratic lineage, which took place in Secremento Wednesday, yielded an aggregate of \$13,662.50—an average of \$100 per head. The range of pascers was from \$330 to \$24625. Following the general sale, Captain A. J. Huchimon.

Barramento Wednesday, yielded an aggregate of \$13,602.50—an average of \$910 per head. The range of peacer was afrom \$330 to \$2625. Following the general sale, Captarn A. J. Hachimson, of this county, sold a colt to "John Markay for \$500.

Enarrue Baoous says that he has seen 190 daily newspapers established in New York, and of these only six are mow in existence. He estimates that \$25,000,000 have been sunk during that time upon daily newspapers, and yet every other college graduate thinks he can run a newspaper.

The California Christian Advocate has an idea that it is possible to have too many religious papers: "Very few of the prevailing argument."

The massessed valuation of taxable property in New York (City is \$1,175,-052,885, which is about twenty times the total valuation of property in each of eversal of the smaller States.

Chemical lessis cannot cry. The most of eversal of the smaller States.
